Fine top quality suction cups. Excellent suction with quick removal feature. Transparent non browning. 9003 with metal hook.

9001... 19mm Suction Cup w/Hook

9003... 38mm Suction Cup w/Hook

4250 ... Tinned Copper Wire.

Bright silver, solders easily to lead, foil or zinc. Soft temper for easy forming. 16 gauge.

7252... Black Sharpie.

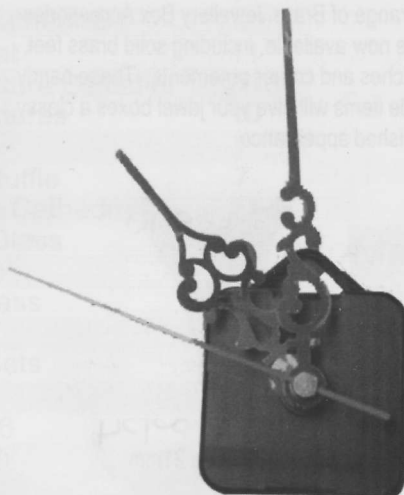

Smooth flowing. For drawing patterns onto paper or glass. Tip size permits drawing of correct width line to allow for lead came heart.

7254G... Gold Marker

Gold Paint Marker for touching up solder joints and marks on brass or gold fittings.

CLOCK PARTS

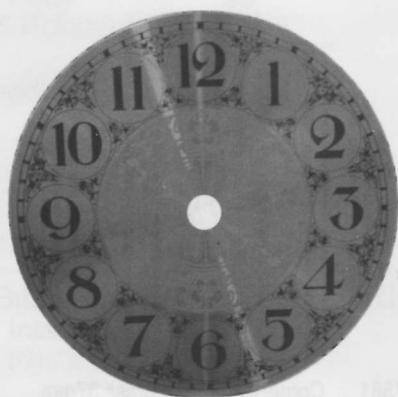

9141...Clock Movements

Precision clock movements ideal for your next clock project. These standard sized movements come complete with Minute, Hour and Seconds hands.

91445...127mm Brass Clock Face

Solid brass clock face with traditional numbers on face. Suited to fit the clock movements part, the face also comes with a set of hands. 127mm diameter.

9144...178mm Clock Face

Solid brass clock face with traditional numbers on face. Suited to fit the clock movements part, the face also comes with a set of hands. 178mm diameter.

LEAD SCULPTURES

Patterns are supplied with each lead figure for three-dimensional standing or hanging forms. Kit contains lead body, wing support & hanger, wire for detail, and instructions. Figures accept black patina. After application, a light brushing with a fine steel wool effects the look of pewter. A great item for simple class projects or a charming gift
