

Tudor Rose Glass Works

Classes & workshops 2018

July - Dec

Glass Fusing and Slumping (beginners plus previous students) - \$ 150

During this one day course you will complete three small projects – a slumped glass platter, a fused dinner plate and some jewellery. Merinda will take you through the technical considerations as well design ideas. Basic materials are supplied but some students choose to purchase some extra coloured glass. If you have done previous classes you are welcome to join in and I can help you extend your skills. *For beginners and experienced students*

Saturday 22nd September 10am – 3.30pm

Saturday 10th November 10am – 3.30pm

Leadlight weekend - \$240

Over two days (one weekend) you will learn the major aspects of this ancient craft as you cut and build your own small window. At the conclusion, you will have enough skills to continue at home if you choose. All aspects will be covered including health and safety, glass cutting, leading, soldering, finishing and polishing. Most tools supplied except a glass cutter. You will need to purchase your glass and lead and this can be arranged at the class.

For beginners and experienced students

Sat 13th October & Sun. 14th October 9.30am – 4.30pm each day

Tiffany technique / Copper foil - \$135

In this one day work shop you will learn the skills to make projects in copper foil. Usually copper foil is suited to more delicate projects such as jewellery boxes, sun catchers and *simple* lamp shades. Course fee covers tuition, use of tools (except a glass cutter, which you can purchase on the day) and chemicals. You will need to purchase your glass and solder and this can be arranged at the class.

Saturday 16th September 9.30am – 4.30pm

Open Studio Session

This is your opportunity to make one bigger more detailed project or to simply have a chance to explore the medium further with Merinda available to assist you. You can set up a fused project, use the saws, work on a foiled or leaded project or make dribblets from the vitroglyph. The studio will be open for a set amount of time and you will be charged an hourly access fee of \$20/hour. Materials and any kiln firings will be an extra charge.

For students who have done previous classes.

Saturday 1st December 10am – 3pm (or a few hours between these times... charge by the hour)

Story blocks and decals - a fusing extension class \$195

In this class we will make one cast block using sepia images of your choice that will be transferred to the glass with simple decal transfers that can be printed from your own photographs. The image block will use 4-5 images in multiple layers to build up a story. We will also cover how to make and apply decals for jewellery, plates and other fused projects. So the work is personal to you, you will be briefed on the required types of images which you will need to provide to me prior to the class. *For beginners and experienced students*

Saturday 15th September & Sunday 16th September 10am – 2.30pm each day

Private and special interest classes

Are you part of a social or special interest group? Do you want to have a fun and creative experience with friends? Get a group together and I'll be happy to design a short session in the studio. For example, a calligraphy group learnt different ways to put words into glass; a group of home schooled children made coasters and jewellery to learn about design and glass craft work.

Cost per person by negotiation depending on time and project

How to enrol – Details on the next page...

About your tutor – Merinda has worked as a professional creative glass artist for over 30 years. She designs and makes commissions for private homes, commercial buildings, schools and churches. Having attended many workshops with some of the worlds best glass artists, she loves the opportunity to share her knowledge and passion for all things creative in glass.
